

Aurion

FACT SHEET

HEALTH & SAFETY

Aurion Health and Safety provides Flexible tools for incident recording and reporting, including measurement rates such as lost time injury frequency. Health and Safety streamlines incident and claims management with comprehensive case and cost history. The payment for compensable lost time or graduated return to work is simplified as Health and Safety calculates the insurance payments and makeup pay and updates your payroll. Preventative action plans assist and proficiency profiles support a proactive approach to Health and Safety management.

Health and Safety is integrated with Leave and Payroll to reconcile absence and automate payments

BENEFITS

Health and Safety enables you to effectively manage workplace incidents and claims for compensation. You establish reporting units as required by national standards for reporting measurement rates. Claims management is simplified as Health and Safety maintains a full case history with a diary of events and details of all persons involved in the case, from witnesses to rehabilitation service providers.

You define cost categories for monitoring costs and Aurion tracks expenditure by financial year and for the claim to date. Aurion saves time by calculating the payment factors for compensation leave and directly updating payroll. The result is accurate information for the analysis of injuries and claims.

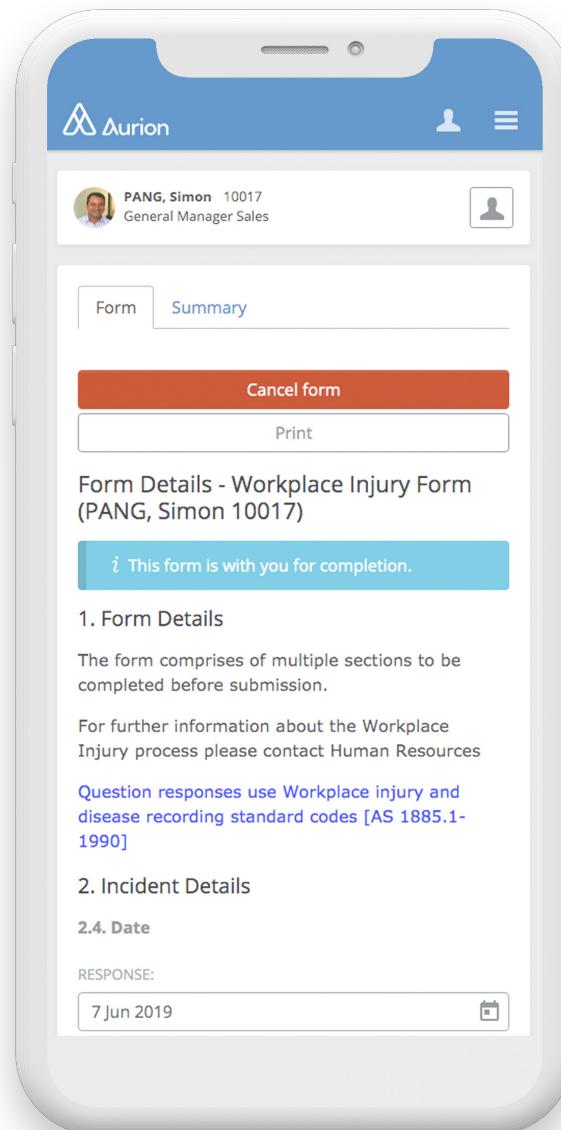

KEY FEATURES

- + Record incidents:
 - + Customise to local and/or site-specific requirements
- + Maintain proficiency profile:
 - + Record available preventative measures and use by staff
- + Manage claims for compensation:
 - + Record details of relevant parties such as witnesses, doctors and service providers
 - + Maintain diary of events
 - + Maintain complete case history for a claim
 - + Maintain history of claim determinations
 - + Prepare and manage 'return to work' plan
- + Track and report on the cost of an incident:
 - + Report by financial year or life of incident
 - + Define other cost categories such as medical, legal and rehabilitation
 - + Calculate cost of time off work
- + Record and manage preventive action plan

HEALTH & SAFETY

- Update Leave and Payroll for compensation leave:
 - Calculate pre-injury normal weekly earnings (PINWE) and apply target weekly earnings
 - Calculate recoverable and nonrecoverable incapacity payments
- Reconcile recoverable payments with insurer
- Maintain details of Recording Units
 - Calculate measurement rates on lost time injuries and frequency
- Record other relevant information such as hazard details and safety inspections.
